COMPUTERS & INFORMATION TECHNOLOGY

ASSOCIATE DEGREE PROGRAM

OFFERING FIVE DEGREE TRACKS AND UP TO NINETEEN CERTIFICATES

Technology Drive Campus

COMPUTERS AND INFORMATION TECHNOLOGY

ACTC CURRENTLY OFFERS 5 CIT AAS DEGREE TRACKS

NETWORK ADMINISTRATION

The network administration track provides the concepts and skills needed to design, set-up, maintain and expand network and telecommunications systems. The curriculum provides specific training in Cisco, and/or Microsoft network systems. Employment opportunities include entry-level positions in installation and administration of local and wide area networks in medium to large businesses and organizations and computer network administration positions in small businesses.

INFORMATION SECURITY

The information security track will provide a solid background in information security. This track will help prepare students for entry-level positions of network security, auditing and penetration testing, firewall configuration and computer crime investigation.

INTERNET TECHNOLOGIES

The Internet technologies track prepares students to design, program and maintain Internet-based services. With specializations in web programming and web server administration.

BUSINESS SOFTWARE AND SUPPORT

The business software and support track emphasizes several aspects of application software with specializations in software specialist, computer applications support and software support.

NETWORK TECHNOLOGIES

The network technologies track provides the concepts and skills needed to set up, maintain and expand networked computer systems.

Most of these degree tracks can be earned in 60 credit hours.
